

Numeracy Presentation Policy

- Write with a sharp pencil
- From Y2 onwards draw a margin with a ruler down the left hand side of each page—2 squares wide for the question numbers.
- The WALT and date will be stuck in or written neatly at the top of the piece of work, next to the margin
- Miss a line and start working
- Mistakes can be rubbed out or surrounded with () and a x. e.g. $(4+6=11^x)$
- If there is less than half a page begin the next piece of work on a new page.
- If there is more than half a page left, miss a line, rule off a straight line and begin.
- 1 digit in one square
- Every line must be drawn with a ruler
